## **ALLOWANCE**

### ***Response to Arguments***

1. Applicant's arguments within the Applicant's Response filed 24 June 2004, with respect to claims 1-21 have been fully considered and are persuasive. The rejections/objections of claims 1-21 have been withdrawn.

The Applicant's primary argument is that U.S. Patent Application Publication No. 2002/0015563 to Murakami et al. does not disclose all the limitations of claims 1-10, 16-18 and 21. Specifically the Applicant argues that the Murakami et al. reference does not disclose a plurality of legs extending outwardly from the edge of the main body, the legs disposed in a stacked configuration in which at least one leg overlies another leg such that at least one leg lies at least partially outside of the common plane. The examiner has thoroughly reviewed the Applicant's arguments and the Murakami et al. reference. The examiner agrees that the Murakami et al. reference fails to disclose or make obvious the limitation of at least one leg **overlying** another leg. It is clear that the legs (31) disclosed within the Murakami et al. reference are not lying upon one another. Therefore, the examiner now believes claims 1-21 to be allowable over the Murakami et al. reference.

### ***Allowable Subject Matter***

2. Claims 1-21 are allowed.
